

MILLIONAIRES AT WORK BLUEPRINT

HELP YOUR EMPLOYEES BECOME
EVERYDAY MILLIONAIRES

If the idea of employee financial wellness as a company benefit is a completely new thought OR if you've had a financial wellness benefit for years, this blueprint is for you!

We've laid out five steps any business should take when bringing financial wellness to their employees. Within each step, you'll find additional resources to help guide you along the way.

1. UNDERSTAND THE WHY BEHIND FINANCIAL WELLNESS AND HOW IT WILL BENEFIT YOUR BUSINESS.

When it comes to personal finance, many Americans—including your employees—are struggling with their money. In fact, over 78% of Americans are living paycheck to paycheck, and 46% can't even cover a \$400 emergency. Money problems affect every part of your employees' lives. When employees don't have a budget, are deeply in debt, and are living paycheck to paycheck, they are worried about their future and not on track for retirement.

Your employees are real people with real hopes and dreams—and real money problems! They bring all their stress and anxiety about their finances with them to work every day. We believe it doesn't have to be that way!

In our webinar, *What You Need to Know About Financial Wellness*, you'll learn how your employees' money problems are affecting your business and your retirement plan. [Sign Up Now](#) to join our webinar at any time that works for you.

2. BREAK THROUGH THE CLUTTER AND LEARN WHAT TO LOOK FOR IN A FINANCIAL WELLNESS SOLUTION.

Financial wellness programs have become an essential part of a well-rounded employee benefits package. With hundreds of providers offering “so-called” financial wellness, it is important to understand the landscape and know what to look for in a solution. True financial wellness must get to the root of the problem and create lasting behavior change in order to have long-term results for you and your employees.

Our [Financial Wellness Landscape](#) will help you break through the clutter by helping categorize the different providers and then outlining the key benefits to look for in the employer and employee experiences.

For instance, a financial wellness solution should include:

**INSPIRING AND
MOTIVATING CONTENT**

**A SIMPLE,
STEP-BY-STEP PLAN**

**EASY-TO-USE
TOOLS**

PERSONALIZATION

**24/7 ACCESS
ON ANY DEVICE**

NO SOLICITATIONS
